Young Negroes Force Him Into Alley and Search 118 Pockets.

Gordon Dent, ten-year-old son of W. A. Dent, of 206 East Main Street, was attacked by a crowd of small negro boys last night at 6 o'clock at Main and Second Streets, forced into an alley and searched, but he had nothing in his pockets. He was not hurt. According to his story, one of the negroes had a revolver, and flourished it. As soon as he was given his liberty the boy ran home and toid his father what had occurred. Mr. Dent reported the matter to the police, and Elicycle Policeman Temlihson was sent to make an investigation. The boy told him that the negroes had no reason to make an attack upon him. He did not know any of them, he said. Tomlinson could find no trace of the rowdles.

Every city in the State, the two Senators, all of the members of Congress, every man holding public office of note and every bank—all of these and more have indersed Richmond's claim. There is no division of sentiment, and while, of course, this fact will not determine the organization committee in its selection of reserve centres it will carry tremendous weight, especially when there is the added plea of the banks and business associations of the Carolinas.

Etris dead was probably without foundation in fact, and due to public hysteria.

"Let's keep our heads," he urged. "Let's be sane. God knows the facts are bad enough. It is not necessary to exaggerate the evil." He said that people didn't go to so-called educational moving-picture shows for moral uplift, but out of idle curiosity, which precluded the possibility of their doing any good they might otherwise do.

### VICE EXAGGERATED IN MOVING PICTURES

In this respect alone the record is unique. To show how the movement has spread, the Fredericksburg Journal, in an editorial yesterday, declared that as a reserve bank would mean great things for Virginia, Richmond should not be expected or required to bear all of the expense in the effort to obtain an honor it deserves. The Journal has called upon the people to assist financially, and has offered to subscribe the story which appeared in The lines placed to the story which appeared in The story which

"The more we traveled and the more we talked the more convinced we were that Richmond has a magnificent chance to be designated as a reserve city," said Henry E Litchford, vice-president of the Old Dominion Trust general poverty. shows. They are stealing an hour from their rest time to satisfy their craving for cheap entertainment. And still more may be said, that abject poverty is perpetuating itself by spending its nickels and dimes in cheap moving-picture shows instead of saving them against the day of need."

Dr. Maclachlan said that the first question asked of juvonile prisoners is as to what is their favorite pastime. In nine cases out of ten they give moving-pictures as their favorite entertainment. They are attracted, Dr. Maclachlan said, by Wild West shows, which are as bad as the yellow-back novels once used to be, and he cited the instance of one juvenile prisoner. after seeing a Wild West show, ar ed himself with a large knife, a bunch of

Much Like the Dime Novel.

"There is a real moral danger." he said, "in witnessing scenes of a highly emotional type without providing a proper outlet for the emotions. Such scenes are very dangerous, as any psychologist will tell you. They do not result in strengthening the character, but in weakening the will, so that a man will weep over a drowning fly and be emotionally immune from human sorrow. Beware of hothouse forcing of hysterical emotion. A large number of moving-picture plays are horribly melodramatic and untrue, and the same accusation may be made against them as against the yellow-back novel. The horo is depicted as a demi-god, the villain as a fiend incarnate, and the heroine as a beautiful, persecuted damsel. But heroes, though there are many real heroes in the world, do not grow wings, and the villains do not have hoofs.

### The State Should Help Richmond

In Richmond funds are being raised to be used in the fight that city is making to secure one of the regional reserve banks. The State of North Carolina is lending its moral aid to Richmond, and so far the press throughout Virginia has solidly backed the Capital City. But it will take money for Richmond to successfully compete with other cities which are struggling to secure this bank; the moral support of the people and the press will not alone suffice.

A regional reserve bank at Richmond will be of great direct benefit to the bankers of this city, and indirectly to the business men and merchants; and even if this were not true, the establishment of the reserve bank at Richmond would be a valuable asset to the State

It is up to the cities and towns in Virginia to help Richmond financially as well as morally, and the Journal will start a subscription in Fredericksburg by donating \$10 to the cause. We will also receive and transmit to the proper authorities at Richmond any other donations .- Fredericksburg Journal.

Dr. Maclachlan Discusses Modern Craze, and Tells People to Keep Their Heads.

Warning his congregation against the modern-day hysteria which sees danger in everything, and declaring that moving pictures are sometimes harmful mainly because they exaggerate conditions by growing wings on heroes and hoofs on the villains, the Rev. H. D. C. Maclachlan, D. D., pastor of the Seventh Street Christian Church, last the inight stressed his belief that sociology, eugenics and sex hygiene are not, and will never be, a panacea for the elemental evil and its attendant dangers. He illustrated his statement that the social evil and the white slave traffic are exaggerated in the moving pletures for commercial purposes by pointing to the story which appeared in The Times-Dispatch yesterday, in which it was stated that the "poison needle" episode was probably without foundation in fact, and due to public hysteria. "Let's keep our heads," he urged. "Let's be sane. God knows the facts are bad enough. It is not necessary to exaggerate the evil." He said that the said enough.
